

# LOGAN & MEALS

Family Dentistry

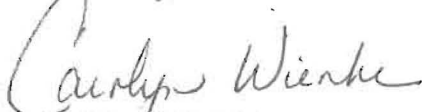

H. David Logan, DDS

Thomas J. Meals, DMD, MPH, RN

Having 15 workstations and a server running Patterson Dental software, our office is fully technology reliant. System issues can bring the practice to an abrupt halt, causing schedule delays, etc. Prior to using Computer Technical Services, we experienced frequent hardware and technology glitches. Joe has always been available to us in an emergency, is willing to work with us in regards to HIPPA regulations, and is pro-active in resolving our issues. We also appreciate the effort made to keep the impact low on our visiting patient base. Not only paying attention to the basic operations of the software, he has also made some cost saving suggestions that were easy to implement. Continually investing in the improvement of our business, the consultation has really helped improve the results of our spending as it impacts business goals. There has been no sign of an attempt at overselling.

Joe is always personable, professional, and able to break the "tech" down into the common English. He is genuinely interested in the success and growth of our practice. Without a doubt, we would highly recommend Computer Technical Services for all of your computer needs.

Sincerely,

Carolyn Wienke  
Office Manager
